

# European Geophysical Society

## 1994 Membership and Journals

### *JOURNAL OF* **GEODYNAMICS**

... from 1994 an official journal of the European Geophysical Society for the Sections on Solid Earth Geophysics and Geodesy with additional aims and scope and an advanced board of editors, published by Pergamon Press, and at greatly reduced concession rates for EGS Members.

**Members of all categories**

**£ 35,-**

### **Climate Dynamics**

... as of Volume 9, No. 1, October 1993 an official journal of the European Geophysical Society for the Section on Oceans & Atmosphere, published by Springer-International, and at a special subscription rate for

**Members of all categories**

**DM 145,-**

### **Nonlinear Processes in Geophysics**

... Volume 1, No. 1 will appear in March 1994, published by the European Geophysical Society for original research involving nonlinear processes in geophysics in the broadest sense, and at a very special subscription price for

**Members of all categories**

**DM 90,-**

Join the EGS and subscribe to these 3 news journals and/or to the other 6 official journals of the Society, and enjoy the membership benefits (see next page).

# EGS Membership 1994

Encompassing all disciplines of Solid Earth geophysics incl. geodesy, oceanology & atmospheric sciences, solar-terrestrial, space & planetary sciences as well as hydrological sciences, the *European Geophysical Society (EGS)* is providing a dynamic forum for the geophysics community through its general assemblies & other meetings, its scientific journals & books, its bulletin Newsletter, its discount & subscription programmes for scientific publications, its support programmes in particular for young scientists & for colleagues from East-Europe, its award programmes, and its many other activities. Members of the Society enjoy the following benefits:

- ☆ Subscription to *Newsletter*, the quarter-ly bulletin of the EGS.
- ☆ Subscription to *Physics World* (regular & lifetime members), a monthly international science & technology magazine.
- ☆ Greatly reduced subscription rates to all official EGS journals - *Annales Geophysicae*, *Climate Dynamics*, *Geophysical Journal International*, *Journal of Geodynamics*, *Journal of Hydrology*, *Nonlinear Processes in Geophysics*, *Planetary & Space Sciences*, *Surveys in Geophysics* and *Tectonics*. All journals are refereed and at no page charges & free reprints for authors.
- ☆ A 30% discount on all books published in one of the *European Geophysical Society Series*.
- ☆ Up to 35% discount on books published by *Elsevier Science Publishers*, *Kluwer Academic Publishers*, *Pergamon Press* or *Springer-International*.
- ☆ Greatly reduced subscription rates to other European publications, e.g. *Nature*.
- ☆ Lower registration rates at *EGS General Assemblies*. All abstracts are included free of charge in the *Annual Supplement of Annales Geophysicae*.
- ☆ Participation in the EGS Support Programmes, e.g. *Young Scientists' Travel Award*, *East European Support Award*.
- ☆ Participation in the EGS Award Programmes, e.g. *Honorary Member-ship*, *EGS Badge Award*, *Young Scientists' Publication Award*, *Sir David Bates* and *Milutin Milankovitch Medal*.
- ☆ Participation in the *Plenary Session* and *Scientific & Technical Committees* of the Society; possibility to stand for election for an office.
- ☆ Assistance by & through the permanent *EGS Secretariat*.
- ☆ Participation in a leading all-European, international organization - growing in membership and offering an increasing number of programmes and publications for the benefit of its members and of geophysics in Europe and throughout the world.

# Nonlinear Processes in Geophysics

A new interdisciplinary journal published by the European Geophysical Society.

## 1. Aims & Scope

*Nonlinear Processes in Geophysics* is an international, interdisciplinary journal for the publication of original research involving nonlinear processes in geophysics in the broadest sense.

This would include but not be restricted to: tectonophysics, seismology, volcanology, sedimentation, hydrological sciences, oceanography and atmospheric sciences, including air-sea and air-land-vegetation interactions, bio-chemical processes and climatology, space physics and natural hazards.

Contributions from both dynamical systems theorists and geophysicists that apply scaling and fractals, chaos, nonlinear time series analysis, nonlinear predictability, turbulence and diffusion, nonlinear waves and solitons, coherent structures and vortex dynamics, or inverse problems in nonlinear dynamics to fundamental problems in geophysics are welcome.

The journal will maintain sections for regular length articles, brief communications (letters) and commentary.

## 2. Editors

A. Babiano, K. Fraedrich, M. Ghil, A.D. Kirwan, L. Knopoff, B. Legras, S. Lovejoy, S.S. Moiseev, A.R. Osborne, L.A. Ostrovsky, A. Provenzale, P.C. Sabatier, D. Schertzer, V. Shrira, L. Smith, D. Sornette, A.A. Tsonis, M.G. Velarde, A. Vulpiani, J. Weiss

## 3. Publication Policy

☆ No page or handling charges for authors.

☆ Rigorous peer review by at least two competent colleagues prior to publication.

☆ Express publication, as all accepted papers must be delivered in camera-ready form by the author(s). Appropriate detailed guidelines or L<sup>A</sup>T<sub>E</sub>X macros are provided by the Editorial Office.

☆ Moderate library subscription rates.

☆ Greatly reduced membership subscription rates.

## 4. Subscription Information

Volume 1 (4 issues) will appear in 1994.

☆ Annual institutional subscription rate

DM 198.- or US\$ 130.-  
including carriage charges

☆ Annual membership subscription rate

DM 90.- or US\$ 60.-  
including carriage charges

Manuscripts or orders and payments by cheque or credit-card (American Express, VISA or Eurocard/ Mastercard) should be addressed together with the credit-card number and expiration date to:
